There is also a PIO check-in phone call today, which was made in the event we need time to go over any lingering communication/role issues. We may not need it after the 1:00 planning meeting.

Thoughts?

Bruce or Karen - please would one of you send me the times, phone numbers, and primary topics of all the calls today that EPA should participate in?

I know there's a lot of preliminary work going on and I'd like to be sure as many of \*us\* are where we need to be as possible.

Thanks!

I think so. I am in the midst of a lot of planning details so I may not be able to.

Also, do we know who is attending the meeting from DEQ?

Thanks

Thanks Karen. I will be a participant in the early afternoon conference call of the technical team. I understand there will be something of a dry run of Thursday night's presentation during that conference call. Are you planning to listen in?
